NEW YORK, Aug. 18.-There was renewal of liquidation and pressure in the cotton market early today owing of foreign exchange Saturday and reports of unsettled conditions in the goods market. The opening was 37 to 65 points lower and active months soon sold 62 to 70 points under Saturday's closing with October touching 30.00 and

closing with October touching 30.00 and January 20.02, making low ground for the movement.

Weakness in the stock market, increased nervousness over general conditions which encouraged continued selling during the early afternoon. October sold off to 29.75c and January to 29.86c, or 84 to 90 points net lower and prices were within 10 or 12 points of the lowest around 2 o'clock.

The decline was held in check around 30c for October by covering and trade buying, but offerings increased on slight buiges with the South a moderate seller of near months, while Liverpool continued a seller of later deliveries and the market weakened again toward midday. Stop orders were uncovered as October broke through the early low point and that position sold down to 29.80c, while January sold at 30c, or 70 to 75 points net lower.

NEW YORK, Aug. 18 - Developmen tone of the stock market at the open-ing of today's session. Declines of 1 to almost 3 points extended throughout the general list, oils, equipments, steels, motors and tobaccos proving most susceptible to pressure. High-class rails also yielded, but shippings were irregular. Interberough Kapid Transit and Interberough Metropolitan were only fractionally lower with Brooklyn Transit.
